COVID-19 Critical Intelligence Unit

Daily evidence digest

14 July 2020

The daily evidence digest collates recently released reports and evidence – provision of these links does not imply endorsement nor recommendation.

Extra-pulmonary symptoms, gendered attitudes, persistence of antibodies

Peer reviewed journals featured:

- Two reviews on extra-pulmonary manifestations of COVID-19 <u>here</u> and <u>here</u>
- A narrative review on existing guidelines to develop a COVID-19 difficult airway strategy <u>here</u>
- Two survey based articles on gender a link between masculine toughness and attitudes towards mask wearing <u>here</u> and differences in COVID-19 conspiracy theory beliefs <u>here</u>
- A cohort study on Bacillus Calmette

 –Guérin (BCG) vaccination that suggests some efficacy against

 COVID-19 here
- An experimental study on the negative impact of wearing personal protective equipment on communication here
- A Stanford Healthcare model to enhance patient engagement during virtual care here
- A comprehensive virtual foot and ankle examination for telehealth visits <u>here</u>
- Commentary on the use of a cost per QALY approach to inform policy during COVID-19 here
- A guide for communication aids to improve conversations with patients facing COVID-19 here
- Opinion pieces on lessons from Leicester's local lockdown <u>here</u> and patients' experiences of prolonged COVID-19 symptoms <u>here</u>
- Editorials on COVID-19 and metabolic syndrome <u>here</u> and surveillance, treatment, and the prevention of cardiovascular disease during COVID-19 here
- Commentary on evidence-based medicine and COVID-19 here
- Discussion of clinical and ethical challenges when patients refuse COVID-19 testing, quarantine, and social distancing in inpatient psychiatry here
- Italian perspectives on triage criteria for critically ill COVID-19 patients in the context of insufficient lifesaving resources <u>here</u>
- A Lancet editorial providing an international perspective "the worst may be yet to come" here

Letters and correspondence discussed:

- Consensus Guidelines from Cardiac Society of Australia and New Zealand for interventional cardiology services delivery during the COVID-19 pandemic in Australia and New Zealand here
- A novel method for reducing potential aerosol generation in flexible nasolaryngoscopy here
- Adult presentations of multisystem inflammatory syndromes associated with COVID-19 here and here
- Change in the incidence of stillbirth and preterm delivery during COVID-19 in the UK here

Pre-peer review articles featured:

- Clinical care for cardiovascular disease during COVID-19 monitoring the indirect impact here
- Studies on the persistence of antibodies <u>here</u> and <u>here</u>
- Test protocols for wastewater testing as an early warning of a potential COVID-19 outbreak here
- A model on societal heterogeneity in complex dynamic patterns of COVID-19 here
- Data from the COVID Symptom Study App on skin manifestations and their diagnostic value here

Guidance and reports

- The Centre for Evidence-Based Medicine released a rapid review on risk factors and effectiveness of prophylaxis for venous thromboembolism in COVID-19 patients <a href="https://example.com/here-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new-based-new
- A briefing on Health Hub for managing cystic fibrosis during the COVID-19 pandemic by the National Institute for Health and Care Excellence <u>here</u>
- Interim guidance on maintaining a safe and adequate blood supply during the COVID-19 pandemic and on the collection of COVID-19 convalescent plasma by World Health Organisation here
- A report from the US Centers for Disease Control and Prevention on the effectiveness of cloth masks for protection against SARS-CoV-2 <u>here</u>
- Guidance from the Australian Department of Health on wearing face masks in the community to protect from COVID-19 here

News items

 Nature featured news items on pooling test samples <u>here</u> and the introduction of universal basic income during COVID-19 in Spain <u>here</u>
