The daily evidence digest collates recently released reports and evidence – provision of these links does not imply endorsement nor recommendation.

Prophylactic anticoagulants, in-hospital cardiac arrest, changes in alcohol consumption, social license and big data

Peer reviewed journals featured:

- A Cochrane review on prophylactic anticoagulants for people hospitalised with COVID-19 here
- A multicentre cohort study and BMJ visual abstract on in-hospital cardiac arrest in critically ill COVID-19 patients here
- A review focused on cancer, its comorbidities and therapies, and COVID-19 here
- Retrospective study of private practice telepsychiatry in Australia during COVID-19 here
- Modelling the dynamics of the COVID-19 population here
- An Australian survey-based study describing shifts in alcohol consumption during COVID-19 here
- An observational study on the impact of COVID-19 on acute cardiovascular admissions across Europe here
- A machine learning-based study that developed a COVID-19 diagnostic model here
- A systematic review and meta-analysis of patient and surgeon satisfaction with telemedicine in orthopaedic care here
- Update to a living systematic review on the use of Remdesivir for COVID-19 here and an associated clinical guideline here
- A health economics decision-making framework for addressing COVID-19 here
- An estimate of the number of deaths from COVID-19 in Australia, if the outbreak had been similar in scale to England and Wales here
- Editorials on:
  - The risks of COVID-19 in the UK here
  - Building a resilient NHS here
- Commentary on:
  - Social license and the use of big data in the COVID-19 era here
  - Strategies and resources to address anxiety among nurses here
  - COVID-19 during air travel here
  - Interpreting COVID-19 diagnostic test accuracy estimates in clinical practice here
Letters and correspondence discussed:

- Minimising the long-term effect of COVID-19 in dementia care in the UK [here](#)
- Analysis of internet search data for chest pain during COVID-19 in the US [here](#)
- Crowding and the shape of COVID-19 epidemics [here](#)

Pre-peer review articles featured:

- A genetic modelling study on COVID-19 evolution and spread [here](#)
- A systematic review and individual-pooled analysis of COVID-19 viral load [here](#)
- A comparative evaluation of surge calculators for managing medical resources [here](#)
- A study of Australian public perceptions and behaviours towards a future COVID-19 vaccine [here](#)
- A modelling study estimating potential benefit of self-isolation on arrival [here](#)
- A observational study on the impact of COVID-19 on the uptake of the flu vaccine in the UK [here](#)
- A national survey on risk factors associated with COVID-19 infection and outbreaks in long term care facilities in England [here](#)

Guidance and reports

- The National COVID-19 Clinical Evidence Taskforce released new and updated recommendations and clinical flowcharts [here](#)

News and blogs

- BMJ blogs on
  - Using the term “Long COVID” [here](#)
  - A survey from the UK Royal College of Physicians on preparing for a second wave [here](#)
- An Australian Department of Health webinar on the COVID-19 response for GPs [here](#)
