## Daily evidence digest

1 July 2021

The daily evidence digest collates recently released reports and evidence – provision of these links does not imply endorsement nor recommendation.

### Ivermectin treatment for COVID-19, reinfection and reactivation of SARS-CoV-2, CoronaVac vaccine in children

#### Peer reviewed journals featured:

- Systematic reviews on:
  - Ivermectin for the treatment of COVID-19 [here](#)
  - Reinfection and reactivation of SARS-CoV-2 [here](#)
- A narrative review on COVID-19 and biologic and immunosuppressive therapy in gastroenterology and hepatology [here](#)
- A phase 1/2 clinical trial of Sinovac vaccine (inactivated SARS-CoV-2) in children and adolescents [here](#) and associated commentary [here](#)
- Observational studies on:
  - Estimated risk of SARS-CoV-2 transmission in the air travel system [here](#)
  - Viral load on face mask filters and nasopharyngeal swabs from COVID-19 patients [here](#)
- An editorial on myocarditis occurring after immunisation with mRNA-based vaccines [here](#)

#### Pre-peer review articles featured:

- Characterising post-acute COVID-19 syndrome [here](#)

#### News and blogs

- COVID-19 will cast “a long shadow” on mental health [here](#)
- The use of airborne precautions for COVID-19 in healthcare settings [here](#)
